Unfinished Business: 1) Website review for score maintenance by coaches & commissioners: not really feasible due to website structure and hosting site. The team will continue to look for alternatives. 2) Capturing 100% of registrations in one database to use data for fundraisers & email communications: using the current online system is not really feasible due to the charges attached for every entry. The team will continue to look at options for a single database.

New Business: none.
